Academics

Florida Gulf Coast University Graduated 2006

- BA: Communication, Computer Info Systems minor

College of Central Florida Graduated 2003

- Associate of Arts, with honors

Most Importantly...

- Meticulous attention to detail
- Honest, customer-first approach
- Passion for the art of software design

Prior Craftsmanship

Outreach Software Engineer, 2019–Present

- Ported legacy dialogs, forms, and settings pages to TypeScript, refactoring to use React functional components, hooks, GraphQL, and instrumentation
- Built a flexible toast-style notification system for the org's internal component library
- Served as first responder in regular on-call rotation

CoolBlueWeb Lead Developer (Magento Team), 2015–2018

- Guided a team of 6 Magento developers building and supporting 25 active clients
- Architected and implemented cloud development workflows with Docker, Git, Composer, Deployer, and Digital Ocean droplets
- Oversaw replatforming of many sites to Magento 2

GoSolid Sr. Frontend Developer, 2013–2015

- Developed a highly custom Magento frontend including multiship checkout UI, product configuration, and extensible layout templates with six breakpoints for Fran's Chocolates
- Developed Magento frontend for an auto parts retailer with thousands of interactive auto parts diagrams, responsive design, and integration with hosted third-party services
- Co-architected and built a webapp for users to sell and consign preowned goods with photo uploads, messaging, and quotes
